### Product Description

Aella Titanium Full System Exhaust AE-42026SC AELLA original muffler produced in collaboration with "Earl's Gear". A new design titanium variant silencer is adopted for the silencer, and it is a carbon end only for AELLA. Titanium alloy is used for the muffler material, achieving a weight reduction of 10 kg without a sub-silencer. A muffler that realizes "increased power and torque" in the entire area. \* Note This product cannot be shared with the pannier case. (Pannier case usable model will be released soon)
