## Product Description

Lightech Carbon Fiber Rear Fender CARB1920 Color - Gloss Lightech carbon fiber rear fender, perfectly interchangeable with the original without having to make any changes. Perfect fender compatibility allows for easy installation. Lightech precision and quality are also reflected in the carbon components. Each piece is made a work of art through the multilayer processing with carbon fiber of the highest quality hardened in an autoclave to obtain maximum resistance and sturdiness while leaving the main feature of carbon intact: lightness.
